

COVID-19 Healthcare Directives Questionnaire

If something were to happen to you or your loved ones, are you prepared to handle their medical wishes? Plan for the expected *and* unexpected by asking yourself these health directive questions below. In South Carolina, you must have a power of attorney and living will set up for others to make decisions on your medical treatment. Make sure your current plan is aligned with your wishes today and avoid confusion during a health crisis.

Take a moment and discuss these questions with your loved ones:

- Do you have an advanced healthcare directive?**
- Have you named a medical power of attorney or healthcare proxy?**
- Do you have a HIPPA authorization set up?**
- Do you have a beneficiary listed? Have they been notified?**
- Do you have an executor or personal representative to act on your behalf? Have they been notified?**
- Do you have a designated emergency contact? Have they been notified?**
- Are you a DNR? Have your loved ones been notified?**

If you answered "no" to any of these questions, let us help you plan and express your wishes for care.

During the Covid-19 pandemic, we are happy to meet with you virtually.
